### Executive Director's Message

California Montessori Project (CMP) is a public charter school network (K-8) operating under four charters, authorized by Buckeye Union, Elk Grove Unified, Sacramento City Unified and San Juan Unified School Districts. CMP has five sites throughout the greater Sacramento, California region, including campuses at Shingle Springs, Elk Grove, mid-town Sacramento, Fair Oaks, and Carmichael.

The Montessori philosophy states that a child has an innate desire to learn and produce purposeful, meaningful work. Dr. Maria Montessori believed that the role of an adult in a child's education is to provide an appropriate environment, complete with tools and methods, to facilitate the child's own discovery of knowledge and skills at the time when it has the most impact for him/her as an individual. This system has a foundation in trust and respect of the individual, and a belief that children will soar beyond traditional expectations.

California Montessori Project offers an environment which has the tools, programs, resources, and support to enable students to become educated to high international academic standards, and to develop themselves to their fullest capacity as competent, happy, productive individuals, family members, workers, and contributors to a better society and a peaceful world. This is achieved through a strong commitment from the community: parents, teachers, community groups, the legislature and, most importantly, the individual child. CMP is grounded in a philosophy of trust in individuals to seek their greatest potentials.

CMP holds that an educated person is well-rounded and balanced. The CMP student shall become a collaborative member of a community, motivated to set and achieve high goals. CMP encourages students to demonstrate empathy towards others through respectful and productive communications. The student is guided to view him/herself as a global citizen who is empowered, and responsible, for making positive changes in the world and within the immediate environment. The CMP student develops personal habits leading to a healthy lifestyle which include balancing leisure, work, family, and community.

While recognizing that the traditional system meets the needs of many, CMP offers an option where students work in multi-age classrooms, with individual learning plans of instruction and materials which are progressive, and frequently self-correcting.

### Principal's Message

The California Montessori Project (CMP) Elk Grove Campus is a Montessori public charter school (K-8) operating under a charter authorized by the Elk Grove Unified School District. We are accredited by the Montessori School Accreditation Commission (MSAC) and have applied for accreditation by the Western Association of Schools and Colleges (WASC). Our program quality is sustained by supporting our California-credentialed and Montessori-trained faculty with continued professional development and quality Montessori materials in low student-to-teacher ratio classrooms.

We encourage our students to be independent learners and problem solvers. Our students utilize individualized work plans to allow them to work at their own level and pace. Cooperation and positive peer relationships are supported through daily Class Meetings. Respect is strongly emphasized, and reinforced on a daily basis: respect for self, respect for others, and respect of our environment.

We have a strong school community with a high level of family involvement. Besides volunteering in the classroom, participating in field trips, and helping to organize special events and fundraisers, there are many opportunities for our families to be involved and get to know each other. Among such events are the Annual Walk-a-Thon and Barbeque, Science Fair and Pancake Breakfast, Art Walk, Chili Cook-off, Family Dance, Ice Cream Socials, and class performances.

## Parental Involvement

Parents play an active role in the California Montessori Project. Many parents exceed the required 40 hours of participation time, as they assist in the classrooms, chaperone students on field trips, volunteer in the office, and organize special school events and fundraisers. Parents are also involved in many leadership roles, including service on the Gardening Committee, Community Advisory Council, and Governing Board.

For more information on how to become involved, contact Mickey Slamkowski, Principal, at (916) 714-9699.

## Public Internet Access

Public Internet access is available at most public libraries. The public library closest to CMP Elk Grove Campus is the Elk Grove Library, located approximately three blocks east of our campus on Elk Grove Blvd.

## Enrollment and Demographics

The total enrollment was 270 students for the 2006-07 school year.

# California Montessori Project ■ Elk Grove Campus

## School Facilities

The CMP Elk Grove Campus facility is a former public school campus leased through the Cosumnes Community Services District. The facility houses four traditional classrooms and four large portable classrooms.

The school grounds include a spacious field, a playground, and a large asphalt play area with a basketball court.

Custodial and maintenance services are provided in the late afternoon and evening through contractual services and parent volunteers.

CMP Elk Grove Campus is currently looking for a larger facility in the Elk Grove area to accommodate the school's growing population.

## Textbooks and Instructional Materials

Montessori curriculum and materials used at the CMP Elk Grove Campus are aligned with the California State Standards. We also use State-adopted texts and materials where needed to complement the Montessori materials.

## California Physical Fitness Test

Each spring, all students in grades 5 and 7 are required to participate in the California Physical Fitness Test (PFT). The test measures six key fitness areas:

1. Aerobic Capacity
2. Body Composition
3. Abdominal Strength
4. Trunk Extension Strength
5. Upper Body Strength
6. Flexibility

To meet fitness standards, students must score in the Healthy Fitness Zone (HFZ) on all six fitness tests. For 2006-07, 15.8% of students in the fifth grade and 33.3% in the seventh grade scored in the HFZ. For more information on the California PFT, please visit [www.cde.ca.gov/ta/tg/pf/](http://www.cde.ca.gov/ta/tg/pf/).

“California Montessori Project offers an environment which has the tools, programs, resources, and support to enable students to become educated to high international academic standards, and to develop themselves to their fullest capacity as competent, happy, productive individuals, family members, workers, and contributors to a better society and a peaceful world.”

## California Standards Tests

For the 2007 STAR exam, students in grades 2-7 took an English-language arts and mathematics test. Students in grades 4 and 7 also participated in an essay writing test. Students in grade 5 took a science test.

Because tests are meant to measure how well students achieve standards rather than how well they do compared to other students, the results are reported as performance levels. The five performance levels are:

- **Advanced** (*exceeds State Standards*)
- **Proficient** (*meets Standards*)
- **Basic**
- **Below basic**
- **Far below basic**

Students scoring at the Proficient or Advanced level meet State Standards in that content area.

The adjacent tables show the percentage of students that scored at proficient or advanced levels in English-language arts, mathematics, science, and history-social science. For a complete report on all subgroups and their scores by grade level, please visit <http://star.cde.ca.gov/>.

## California Standards Tests Results

The multiple-choice California Standards Tests (CST) are part of the Standardized Testing and Reporting (STAR) and are administered only to students in California public schools. These tests determine students' achievement of the California Academic Content Standards and provide feedback on their success given what they are expected to know in each grade level and subject.

## Norm Referenced Tests

Norm referenced tests (NRT) are nationally administered multiple-choice achievement tests that provide statistical feedback on a national level. The purpose of these tests is to determine how well California students are achieving academically compared to students nationally in reading, language, spelling, and mathematics in grades 3 and 7 only. The current NRT adopted by the State Board of Education is the California Achievement Test, Sixth Edition, or CAT/6. For a complete report on all subgroups and their scores by grade level, please visit <http://star.cde.ca.gov/>.

The tables below show the percentage of students that scored at or above the 50th percentile (national average) in reading and math.

## School Safety

California Montessori has a School Safety Plan and Emergency Preparedness Handbook that are reviewed every year with staff and teachers at each campus.

The CMP school-wide Safety Plan was submitted and approved as part of the 2006 Charter Petition in April 2006. Key elements of the plan include monthly drills and crisis intervention plans.

This plan is reviewed annually and was most recently reviewed, updated, and discussed with school faculty in August 2007.

## Professional Development Days

CMP has five days each year dedicated to staff and professional development.

## Adequate Yearly Progress

NCLB requires that all schools and districts meet Adequate Yearly Progress (AYP) requirements. To meet these standards, California public schools and districts must meet or exceed criteria in four target areas:

1. Participation rate on statewide assessments
2. Percent of students scoring proficient on statewide assessments
3. API scores
4. Graduation rate for high schools

For a detailed report on Adequate Yearly Progress, please visit [www.cde.ca.gov/ta/ac/ay/](http://www.cde.ca.gov/ta/ac/ay/).

## Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. The API is a score on a scale of 200 to 1,000, with 800 set as the statewide target. Schools are ranked in ten categories of equal size from 1 (lowest) to 10 (highest). A similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." The adjacent tables show the school's three-year data for API rank and API growth. For more detailed information, please visit [www.cde.ca.gov/ta/ac/ap/](http://www.cde.ca.gov/ta/ac/ap/).

**Testing Note:** Assessment data are reported only for numerically significant subgroups. Data may not appear if ethnic/racial, socio-economically disadvantaged, or other subgroups (1) contain less than 100 students with valid test scores OR (2) comprise less than 15% of the school population tested and contain less than 50 students with valid scores.

## No Child Left Behind Compliant Teachers

No Child Left Behind (NCLB) requires that all teachers of core academic subject areas be "highly qualified." In general, for a teacher to be considered highly qualified, they must have a bachelor's degree, an appropriate California teaching credential, and have demonstrated competence for each core subject he or she teaches. For more information on teacher qualifications related to NCLB, please visit [www.cde.ca.gov/nclb/sr/tq](http://www.cde.ca.gov/nclb/sr/tq).

## Types of Services Funded

California Montessori Project does not receive any Federal or categorical funds. The programs and supplemental services provided are Class Size Reduction (CSR) and Special Education.

Additional reading support is provided through a Read Naturally pullout program during school day afternoons, provided by a credentialed teacher.

Our credentialed staff also offers no-cost, after-school tutoring programs targeting at-risk students.

“The Montessori philosophy states that a child has an innate desire to learn and produce purposeful, meaningful work.”

**SARC**—The information contained herein is provided by the California Department of Education: Enrollment and Demographics, Counselors and CST, NRT, API, PI, AYP, California PFT, Teacher Qualifications, and some Financial Information. For additional information on facts about California schools and districts, please visit DataQuest at <http://data1.cde.ca.gov/dataquest>. DataQuest is an online resource that provides reports for accountability, test data, enrollment, graduates, dropouts, course enrollments, staffing and data regarding English Learners.

All other information is provided by the school and the district office.

All data accurate as of March 13, 2008.

## Federal Intervention Program

Schools that receive Title I funding can enter Program Improvement (PI) if they don't reach AYP over two consecutive years in the same content area (English-language arts or mathematics) or on the same indicator (API or graduation rate). With each additional year that they don't meet AYP, they advance to the next level of intervention. For more information, please visit [www.cde.ca.gov/ta/ac/ay](http://www.cde.ca.gov/ta/ac/ay).
